[WI Forward Spring 2017 Technology Q&A Session – January 2017](#)

Run time: 1:16:06

The following questions are included in this recording. Once on YouTube, click on the timestamp in the info section below the video to jump directly to that question and response.

Introduction

If we used the Forward Exam last year, what do we need to run it this year?	09:28
Is the TSM for the Forward Exam the same version as the one used for the ACCESS (WIDA) assessment?	13:39
Does INSIGHT actually update or must it be opened and launched for it to update?	16:52
For the districts that have run this test before, is there anything different we need to do this year other than uninstall and reinstall the TSM file?	25:39
Where do I find TSM version 9.1.0_0?	29:33
If students are testing on iPADS, are keyboards required?	31:43
Can the TSM be installed on Windows Server 2012 R2?	34:38
What steps do i need to take if I'm using the same devices for ACCESS and Forward?	35:51
64-bit TSM says up to 500 devices with proper hardware. Also, what's the difference between the 64-bit TSM and the Mega TSM?	39:36
Is there a practice exam that can be used to confirm if INSIGHT is working properly?	46:18
Is there a date when eDIRECT will be live with student data?	49:10
With a Quadcore 64-bit PC w/ 8GB of RAM, conservatively 500 users - should be fine?	54:24
Org Unit review	58:29
Could the Dual selection be changed to just "ACCESS" and "Forward"?	1:05:17
Have you considered creating a downloadable virtual machine?	1:07:10
Can't get to the Device Toolkit	1:08:52
What do I need to put in the TSM content caching server name?	1:10:50
Conclusion	1:13:57
